

**WINDUP FOR 10TH ANNUAL CHAPARRAL ENERGY GOLF TOURNAMENT,
SEPTEMBER 12, 2008 AT LINCOLN PARK GOLF COURSE IN OKC, OK**

What happens to the tournament if it keeps raining? The hurricane Ike, our uninvited guest, was starting to trouble players and the planning committee, but the clouds cleared and the sun shined and the wind blew just right so the 10th Annual Chaparral Energy Golf Tournament got under way on time. The attitude was happy and the golf course was in perfect shape after a rainy August. The golf course crew was very hospitable and took care of all of our needs. The food was plentiful and nobody went hungry!

A big THANK YOU goes out to Mark Fischer and the Senior Management team for once again helping make the golf tournament a success. Without their support and encouragement this event could not take place.
